2011-2013 MY SORENTO HEADLAMP LOW BEAM CONNECTOR WIRING HARNESS NEW VEHICLE LIMITED WARRANTY EXTENSION

PLEASE KEEP THIS LETTER IN THE GLOVEBOX OF THE VEHICLE

April 22, 2019

Dear Kia Sorento Owner:

Kia Motors America, Inc. takes pride in providing you with high quality and dependable vehicles. In order to maintain these standards, Kia is extending the New Vehicle Limited Warranty coverage, **to all owners** of 2011-2013 MY Kia Sorento vehicles, for the halogen headlamp low beam connector wiring harness from 5-years/60,000-miles to 10-years/unlimited-miles, starting from the date of first service. The headlamp connectors may lose electrical contact with a low beam bulb in one of the headlamp assemblies. This condition on the affected headlamp does not affect the other low beam. In addition, the high beams continue to function at all times.

What Should You Do?

- If one of your low beams flickers or otherwise does not operate correctly, contact an authorized Kia dealership to make an appointment to have your vehicle diagnosed and repaired. If this condition occurs turn on your high beams until you have your vehicle repaired.
- To find your nearest dealer, visit www.kia.com and click the "Find Dealer" button in the upper right corner ("Dealers" on a mobile device). You can also use the QR code below with your mobile device to access this information (*see the bottom of this letter for more information about QR code use*):

- **RETAIN THIS LETTER IN THE GLOVE COMPARTMENT OF YOUR KIA VEHICLE.** Place this letter in your vehicle's glove compartment, preferably together with your vehicle's other warranty information. When seeking service, refer this letter to your servicing dealer. If you sell your vehicle, ensure that you include this letter with the documents you provide to the buyer.

Warranty Extension Coverage:

- If, at any time within the extended warranty period, the low beam headlamps flicker or otherwise does not operate correctly, your Kia dealership will diagnose the cause **at no cost to you.**
- If the diagnosis indicates the condition is caused by the headlamp connectors losing electrical contact with a low beam bulb in one of the headlamp assemblies, Kia will replace the low beam connector wiring harness in your vehicle **at no cost to you.**
